Dear Pharmacist

INSPECTION BY COUNCIL

The main objective of the inspectorate of the South African Pharmacy Council is to monitor the standard of practice in pharmacies by way of regular inspections. This allows identified shortcomings to be rectified, thereby ensuring that the public is provided with a comprehensive pharmaceutical service of an acceptable standard.

The above pharmacy was recently inspected by one of the Council inspectors. The outcome of the inspection was of such a nature that the Council wishes to compliment you on maintaining a high standard of pharmacy practice.

A copy of the inspection report is included for your perusal. It is recommended that any identified shortcomings are addressed in order to improve further the standard of practice in the pharmacy. Please do not hesitate to contact Wilhelm Kotzé at the office of Council if you have any queries in this regard.

Please acknowledge receipt in writing of the report and ensure that the correct reference number is reflected on your correspondence with Council.

Yours faithfully

for ACTING REGISTRAR
